INTERIM STATEMENT

Business overview

Over the first six months of 2015/16 the Haynes Group has experienced mixed trading in its consumer business but with strong trading from its professional operations in Europe, overall Group revenue ended the six month period 3% ahead of last year. During the period the Group continued the development of its new consumer digital platforms. The recruitment of a new executive, Andrew Golby, in October 2015, with global responsibility for the Group's consumer digital development has significantly strengthened the Group's resources in this area.

In the Group's professional markets in Europe, continuing investment in new vehicle content and new product innovation has led to new customer gains and expanding relationships with existing customers. In our major consumer product markets, we have experienced a stronger six months of trading in the UK, however we continue to face challenging conditions for our printed manuals in both the US and Australia.

In August 2015, the Group completed the UK phase of its new global website improvement programme. The new platform is being developed and built entirely in-house and the roll out of the new US site will follow over the next few months. During the six months to 30 November 2015, revenue from the Group's digital product ranges rose by 26% to £3.4 million (2014: £2.7 million) representing 28% of total Group revenue (2014: 23%).

As part of the Group's succession planning, the Company has announced today the appointment of James Bunkum to the Main Board as Chief Financial Officer designate. James has worked in the Group for over 20 years and is currently the UK & European Finance Director and Group Company Secretary. James will succeed Dan Benhardus who retires as the Group Finance Director at the end of May 2016.

Financial review

Income statement

Overall Group revenue ended the six month period 3% ahead of the prior year at £12.2 million (2014: £11.9 million).

In the UK & Europe, revenue ended the period 13% ahead of last year driven by strong growth in the European professional business, under the HaynesPro branding, where revenue for the six month period was up 27%. In the UK, a return to more normal ordering patterns by our key consumer retailers helped increase revenue from automotive manuals by 12% but after taking into account the higher revenue last year from the titles discontinued in 2013/14 the overall UK increase was lower at 1%.

In North America & Australia the trading conditions remain challenging. At the time of reporting our 2014/15 full year results in September 2015, we noted that revenue in these markets for the first three months of 2015/16 was 2% behind last year. Since this time we have seen further deterioration in North American & Australian markets with revenue ending the six month period 6% down on the prior year.

The higher mix of revenue from the Group's digital professional product ranges and the improved sales of UK consumer manuals helped increase the Group gross margin by 3.6 percentage points to 58.7% (2014: 55.1%) and in monetary terms up 9% to £7.1 million (2014: £6.5 million). With Group overheads ending the six month period up 6% at £6.6 million (2014: £6.2 million), primarily due to higher European sales costs following the opening of the new HaynesPro German subsidiary in May 2015 and higher customer related rebates, Group operating profit ended the period up £0.3 million at £0.6 million (2014: £0.3 million).

Net finance costs were in line with the prior year at £0.3 million (2014: £0.3 million) leaving overall Group profit before tax higher at £0.3 million (2014: £0.1 million). With an effective tax rate of 35% (2014: 38%), reflecting the lower mix of US profits over the six month period, earnings per share increased to 1.2 pence (2014: 0.2 pence).

Operational review

North America & Australia

Local currency revenue in the Group's North American and Australian operations ended the six month period to 30 November 2015 down 11% at \$9.4 million (2014: \$10.6 million). Over the past 18 months our sales teams in both the US and Australia have been working closely with our key retailers to address the declining sales in these key territories for the Group, focussing particularly on the in-store marketing of our manuals. Whilst we experienced the normal seasonal pick-up in sales during the second half of 2014/15, the expected improvement in sales during the first six months of 2015/16, against a very poor first half of trading last year, did not materialise. Against the same six month period last year sales of our US Haynes and Chilton manuals were down 8% while our Australian manuals were down 43% and Clymer motorcycle manuals were down 17%. With an average exchange rate of \$1.54 for the six month period to 30 November 2015 (2014: \$1.64) after translation to Sterling, North American & Australian revenue ended the period down 6% at £6.1 million (2014: £6.5 million).

The net impact of the lower US and Australian revenue coupled with a lower goodwill amortisation charge of \$0.2 million following the £9.7 million (\$14.8 million) impairment of acquired intangible assets in 2014/15, left segmental operating profit before interest down 50% at \$0.1 million (2014: \$0.2 million) which after translation to Sterling was in line with last year at £0.1 million (2014: £0.1 million).

UK & Europe

UK revenue, excluding sales of the discontinued general publishing titles, ended the period 11% up on the six month period last year. Revenue from automotive manuals was up 12%, following a return to more normal ordering patterns from two key retailers and continued growth from UK retailers with a strong online presence, whilst revenue from the UK's non-automotive titles ended the period up 2%. Year-on year UK revenue including the discontinued general publishing titles (2014: £0.3 million) was up 1%.

In Europe, revenue from HaynesPro ended the period 27% up on the same six month period last year boosted by new customer gains during the period and increased business from its existing customer base. The impact of the higher average Euro exchange rate during the period of €1.40 (2014: €1.27) reduced our European revenues by £0.3 million and left overall UK & European revenue up 13% at £6.1 million (2014: £5.4 million).

The higher revenue in the UK & Europe along with a lower UK cost base, following the restructuring in 2013/14, has helped return the UK & European business to profitability during the six months to 30 November 2015 leading to a segmental operating profit before interest of $\mathfrak{L}0.3$ million (2014: loss of $\mathfrak{L}0.4$ million).

Interim Report and Accounts for the 6 months ended 30 November 2015

Balance sheet and cash flow

As noted in the Annual Report 2015, during 2014/15 the Group's editorial origination costs were re-classified from inventory to intangible assets and the prior year numbers restated. Accordingly, in this Interim Statement, a similar re-classification of the November 2014 inventory and intangible assets balances has been made. The impact of the change has been to increase intangible assets by £7.6 million with a corresponding reduction to inventory.

During the six month period the Group incurred $\mathfrak{L}0.2$ million of expenditure on tangible fixed assets (2014: $\mathfrak{L}0.2$ million) and invested $\mathfrak{L}2.9$ million in new product development (2014: $\mathfrak{L}2.6$ million).

As at 30 November 2015 the net IAS 19 deficit on the Group's two defined benefit retirement schemes reduced to £13.4 million (31 May 2015: £14.3 million). The combined total assets of the schemes increased by £0.4 million to £33.1 million (31 May 2015: £32.7 million) and a slightly higher UK discount rate assumption of 3.8% (31 May 2015: 3.6%) led to a decrease in the schemes' liabilities of £0.6 million which ended the period at £46.5 million (31 May 2015: £47.1 million).

Also during the period the Group repaid £1.0 million of its US bank borrowings taken out to part fund the Clymer acquisition in September 2013 and at 30 November 2015 the balance outstanding on the US revolver loan was £0.4 million (31 May 2015: £1.4 million). Group net debt ended the period at £0.5 million (31 May 2015: net cash of £0.1 million) leaving net gearing of 2% (2014: 3%). The Company still holds 1.2 million shares in treasury.

Interim dividend

The Board is declaring an unchanged interim dividend of 3.5 pence per share. The interim dividend will be paid on 6 April 2016 to shareholders on the register at the close of business on 18 March 2016.

Interim Report and Accounts for the 6 months ended 30 November 2015

Future outlook

The initial findings of the operational, cost and structure review announced at the full year are currently being discussed with the Board and senior management. Once the plans have been evaluated and agreed internally, a further announcement will be issued by the Board.

On the professional side of the business, the new HaynesPro Repair Times database was launched on schedule at the beginning of January 2016 and will yield significant cost savings for the Group going forward as well as open up new revenue generating opportunities. The second of the new databases being developed internally, covering in vehicle comfort wiring diagrams, remains on track for launch in early 2017. The continuing focus on new product development and establishing new customer relationships will be a key driver for HaynesPro management over the coming months.

As the Group moves towards what is traditionally the stronger six months of trading for our automotive manuals the difficult trading conditions we are encountering for our printed manuals in the US and Australia remains a concern for management and early second half trading is continuing to track behind last year.

In the UK, management are encouraged by the sales performance of manuals during the first half of the year but are aware this improved performance comes on the back of a very poor six months of trading last year. Nevertheless, early indications are that early like-for-like second half trading in the UK is tracking in line with last year.

The development of our new consumer digital platform and the creation of new video content will continue to be a complementary area of focus for our digital and editorial teams over the coming months.

Responsibility statement

Pages 22 and 23 of the Annual Report 2015 provide details of the serving Executive and Non-Executive Directors and there have been no changes during the six months to 30 November 2015. A statement of the Directors' responsibilities is contained on page 45 of the Annual Report 2015. A copy of the Annual Report 2015 can be found on the Haynes website www.haynes.co.uk/investor.

The Board confirms that to the best of its knowledge the condensed set of financial statements gives a true and fair view of the assets and liabilities, financial position and profit of the Group and has been prepared in accordance with IAS 34 'Interim Financial Reporting', as adopted by the European Union and that the interim management report includes a fair review of the information required by the Disclosure and Transparency Rules as issued by the Financial Conduct Authority, namely:

- DTR 4.2.7: An indication of important events that have occurred during the first six months of the financial year, and their impact on the condensed set of financial statements, and a description of the principal risks and uncertainties for the remaining six months of the financial year.
- DTR 4.2.8: Details of related party transactions that have taken place in the first six months of the current financial year and that have materially affected the financial position or performance of the enterprise during that period. Together with any changes in the related parties transactions described in the last annual report that could have a material effect on the enterprise in the first six months of the current financial year.

INDEPENDENT REVIEW REPORT TO HAYNES PUBLISHING GROUP P.L.C.

Introduction

We have been engaged by the company to review the condensed set of financial statements in the half-yearly financial report for the six months ended 30 November 2015 which comprises a consolidated income statement, consolidated statement of comprehensive income, consolidated balance sheet, consolidated statement of changes in equity, consolidated cash flow statement and related notes.

We have read the other information contained in the half-yearly financial report and considered whether it contains any apparent misstatements or material inconsistencies with the information in the condensed set of financial statements.

Directors' responsibilities

The half-yearly financial report is the responsibility of and has been approved by the directors. The directors are responsible for preparing the half-yearly financial report in accordance with the Disclosure and Transparency Rules of the United Kingdom's Financial Conduct Authority.

As disclosed in note 1, the annual financial statements of the group are prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union. The condensed set of financial statements included in this half-yearly financial report has been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting", as adopted by the European Union.

Our responsibility

Our responsibility is to express to the company a conclusion on the condensed set of financial statements in the half-yearly financial report based on our review.

Our report has been prepared in accordance with the terms of our engagement to assist the company in meeting its responsibilities in respect to half-yearly financial reporting in accordance with the Disclosure and Transparency Rules of the United Kingdom's Financial Conduct Authority and for no other purpose. No person is entitled to rely on this report unless such a person is a person entitled to rely upon this report by virtue of and for the purpose of our terms of engagement or has been expressly authorised to do so by our prior written consent. Save as above, we do not accept responsibility for this report to any other person or for any other purpose and we hereby expressly disclaim any and all such liability.

Interim Report and Accounts for the 6 months ended 30 November 2015

Scope of review

We conducted our review in accordance with International Standard on Review Engagements (UK and Ireland) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Auditing Practices Board for use in the United Kingdom. A review of interim financial information consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing (UK and Ireland) and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the condensed set of financial statements in the half-yearly financial report for the six months ended 30 November 2015 is not prepared, in all material respects, in accordance with International Accounting Standard 34, as adopted by the European Union, and the Disclosure and Transparency Rules of the United Kingdom's Financial Conduct Authority.

Interim Report and Accounts for the 6 months ended 30 November 2015

Notes to the Interim Report and Accounts

1. Accounting policies - Basis of accounting

The interim financial statements for the six months ended 30 November 2015 and 30 November 2014 and for the twelve months ended 31 May 2015 do not constitute statutory accounts for the purposes of Section 434 of the Companies Act 2006. The Annual Report and Financial Statements for the year ended 31 May 2015 have been filed with the Registrar of Companies. The Independent Auditors' Report on the Annual Report and Financial Statements for the year ended 31 May 2015 was unqualified, did not draw attention to any matters by way of emphasis, and did not contain a statement under sections 498(2) or 498(3) of the Companies Act 2006. The 30 November 2015 statements were approved by the Board of Directors on 27 January 2016 and although not audited are subject to a review by the Group's auditors.

The financial information has been prepared in accordance with the Disclosure and Transparency rules of the Financial Conduct Authority and in compliance with International Accounting Standard (IAS) 34 'Interim Financial Reporting (Revised)' as endorsed by the European Union.

The interim financial statements have been prepared on a consistent basis with the accounting policies set out in the Annual Report 2015 and should be read in conjunction with that Annual Report. The Group's annual financial statements are prepared in accordance with International Financial Reporting Standards (IFRS's) and International Financial Reporting Interpretations Committee (IFRIC) pronouncements as adopted by the European Union and the Annual Report 2015 provides details of other new standards, amendments and interpretations which come into effect for the first time during the current financial year. The new standards, amendments to standards and interpretations which apply to the Group for the first time in this financial year have been reviewed by management and management do not believe that the new standards, amendments to standards or interpretations will have a material impact on the Group's financial statements for the financial year ended 31 May 2016.

Restatement of Prior Years

i) During the previous financial year and as reported in the Annual Report 2015 management reviewed the way in which editorial costs are reported in the Group's Financial Statements. In particular management considered whether it still remained appropriate to report editorial origination costs as a component of inventory in the Consolidated Balance Sheet or whether, in light of the changing nature of the business, such costs would be more appropriately recorded as an intangible asset. Management concluded that as the editorial content created for the Group's consumer products is used to create both printed and digital online manuals and is also being used in the development of the Group's new digital delivery platform, that the editorial costs would be more appropriately recorded as an intangible asset. The reclassification only impacted the Consolidated Balance Sheet and Cash Flow Statement and did not impact on the Consolidated Income Statement in either the current or prior year. The impact of the restatement on the 30 November 2014 figures has been to increase intangible assets (Product development) by £7,589,000 with a corresponding decrease to inventories (Finished goods). In the Consolidated Cash Flow Statement the amortisation of intangible assets has increased by £1,385,000, the decrease in inventories has increased by £186,000, the expenditure on development costs has increased by £1,363,000 and the effect on foreign exchange rate movements has decreased by £208,000.

Interim Report and Accounts for the 6 months ended 30 November 2015

Restatement of Prior Years (continued)

ii) In the year ended 31 May 2015 the Group recognised an impairment loss of £9,667,000 in respect of its US intangible assets. As certain of these assets are eligible for tax relief in the US over time, it is appropriate to recognise the future tax benefit to the Group by increasing the deferred tax asset in the balance sheet as at 31 May 2015. Accordingly, the comparative Consolidated Income Statement, Consolidated Statement of Comprehensive Income, Consolidated Balance Sheet, Consolidated Statement of Changes in Equity, Consolidated Cash Flow Statement and affected notes for 31 May 2015 have been restated. The impact of this restatement on the 31 May 2015 figures has been to reduce the tax charge in the Consolidated Income Statement by £2,130,000, increase the deferred tax asset in the Consolidated Balance Sheet by £2,206,000 and increase the exchange gains on the translation of foreign operations in the Consolidated Statement of Comprehensive Income by £76,000.

Adoption of Financial Reporting Standard (FRS) 101 - Reduced Disclosure Framework

Following the publication of FRS 100 'Application of Financial Reporting Requirements' by the Financial Reporting Council, Haynes Publishing Group P.L.C. and its UK subsidiaries will no longer be able to report under UK GAAP for financial year-ends beginning after 1 January 2015. Therefore, the Company and its UK subsidiaries intends to adopt the new FRS 101 "Reduced Disclosure Framework", based on International Financial Reporting Standards as adopted by the European Union for its next financial year-end reporting and in future years.

In line with the new reporting regime, a shareholder or shareholders who hold in aggregate 5% or more of the total allotted shares in Haynes Publishing Group P.L.C. may serve objections to the use of the disclosure exemptions. Any such objections should be served in writing to the Company Secretary of Haynes Publishing Group P.L.C., at its registered office (Sparkford, Somerset BA22 7JJ) by no later than 29 February 2016.

3. Segmental analysis

For management and internal reporting purposes, the Group is organised into two geographical operating segments as follows:

- UK & Europe
- North America & Australia

The UK and European business with headquarters in Sparkford, Somerset has subsidiaries in the Netherlands, Italy, Spain, Romania, Germany and Sweden. Its core business is the publication and supply of automotive repair and technical information to the professional automotive and DIY aftermarkets in both a printed and digital format.

The North American and Australian business with headquarters near Los Angeles, California publishes DIY repair manuals for cars and motorcycles in both a printed and digital format. The business publishes titles under the Haynes, Chilton, Clymer and Intertec brands. It also has a branch operation in Sydney, Australia which publishes similar products under both the Haynes and Gregory's brands.

The above two operating segments are each organised and managed separately and are treated as distinct operating and reportable segments in line with the provisions of IFRS 8. The identification of the two operating segments is based on the reports reviewed by the chief operating decision maker, which form the basis for operational decision making. Inter-segmental sales are charged at the prevailing market rates in a manner similar to transactions with third parties.

The adjustments below have been made in the segmental tables which follow to reconcile the internal reports as reviewed by the chief operating decision maker to the financial information as reported under IFRS in the Group Financial Statements:

- In the segmental reporting freehold buildings are depreciated over 40 years under IAS 16 the
 residual value of buildings reflect the expected value at the end of their useful life resulting in an
 adjustment to depreciation.
- In the segmental reporting pension contributions are expensed and the assets and liabilities of a
 defined benefit pension scheme are held separately from the Group under IAS 19 the Income
 Statement and Statement of Comprehensive Income are adjusted to reflect the annual current
 service cost and actuarial gains and losses arising on a defined benefit pension scheme and the net
 surplus/(deficit) on the scheme is included in the balance sheet.
- In the segmental reporting goodwill is amortised over a period not exceeding 20 years under IFRS 3 goodwill is reviewed annually for impairment but not amortised.
- In the segmental reporting the excess of the consideration over net assets acquired on a business combination is shown as goodwill – under IAS 38 specific intangible assets are created and adjusted for deferred tax arising on acquisition.
- The unallocated head office assets primarily relate to freehold property, deferred tax assets and amounts owed by subsidiary undertakings. The unallocated head office liabilities primarily relate to the deficit on the UK's multi-employer defined benefit pension scheme and tax liabilities.

Exceptional items are those significant items which warrant separate disclosure by virtue of their scale and nature to enable a full understanding of the Groups financial performance.

5. Taxation

The tax charge in the Consolidated Income Statement is calculated using the tax rates which each of the Group's operating entities expects to adopt for the financial year ended 31 May 2016. The charge for taxation for the six months to 30 November 2015 of £103,000 (30 November 2014: £21,000 / 31 May 2015 a credit of £1,340,000 restated¹) reflects the lower mix of US profits and trading losses in the UK business. The Group continues to expect its effective corporation tax rate to be higher than the standard UK rate due to the trading profits it generates in overseas subsidiaries where the tax rates are higher than the UK.

9. Retirement benefit obligation

The Group operates a number of different retirement programmes in the countries within which it operates. The principal pension programmes are a contributory defined benefit scheme in the UK and a non-contributory defined benefit plan in the US. The assets of all schemes are held independently of the Group and its subsidiaries.

During the period, the financial position of the above pension arrangements have been updated in line with the anticipated annual cost for current service, the interest on scheme liabilities and cash contributions made to the schemes.

The last full IAS 19 actuarial valuation was carried out by a qualified independent actuary as at 31 May 2015. This valuation has been updated by the Scheme's actuaries on an approximate basis for the six month period ending 30 November 2015.

The movements in the retirement benefit obligation were as follows:

	6 months to 30 Nov 2015	6 months to 30 Nov 2014	Year ended 31 May 2015
	2000	5000	\$000

Interim Report and Accounts for the 6 months ended 30 November 2015

14. Principal risks and uncertainties

The principal risks and uncertainties facing the Group during the second half of the financial year are outlined in the Interim Statement and summarised below:

- The UK and Global economic outlook and in particular, the consequential impact on consumer confidence and businesses.
- Movements in the exchange rate of the US Dollar and Euro against Sterling.
- The impact of movements in interest rates, inflation and investment performance on the Group's retirement benefit schemes.

The Board considers that the above, along with the principal risks and uncertainties which were discussed at more length in the Annual Report 2015 under the following headings and page references, continue to be the major risks and uncertainties facing the Group:

- The Group's principal operational risks and uncertainties (pages 17 18)
- The processes adopted by the Board to identify and monitor risk (page 31)
- The Group's principal financial risks and uncertainties (pages 79 81)
